FOR IMMEDIATE RELEASE

### **Gatekeeper Announces \$93,800 Contract with Alpine School District for Delivery of Bus Video Systems in Utah**

Abbotsford, BC August 6<sup>th</sup>, 2013 Gatekeeper Systems Inc. (the “Company” or “Gatekeeper”) (TSX.V: GSI) is pleased to announce it has received a new contract from Alpine School District for 48 school bus video systems in Utah. Total contract size is \$93,800 USD and includes both 4 camera and six camera systems.

Alpine School District operates a fleet of 285 school buses transporting 21,000 children daily. Gatekeeper has provided both its G series 304 four camera system and 508 eight camera digital video recording system. In addition, Alpine is using Gatekeeper’s Wide Dynamic Range cameras which integrate leading edge PIXIM technology for superior imaging performance in fluctuating light conditions. Both platforms include GPS which synchronizes bus location with video, time and data and other vehicle sensor metadata to provide transportation managers with a total operating picture of what is happening in and around their school buses.

President and CEO Doug Dymont stated, “the decision makers at Alpine School District are forward looking visionaries and have the foresight to invest in Wide Dynamic Range technology to ensure advanced imaging in difficult light conditions found in and around school buses. In addition, our scalable platform gives Alpine administrators the ability to deploy up to 8 cameras on a single platform which is an increasing trend as school districts require multiple camera views.” Dymont also added, “our scalable video solution allows our customers to add up to 16 cameras giving them a 360 degree view of the bus, dual video channels for simultaneous recording and live streaming over cellular for emergency situation analysis.”

#### **About Gatekeeper Systems Inc.**

Founded in 1997, Gatekeeper Systems Inc. has provided total mobile video security solutions to over 3,500 customers and has installations in every state and province in North America. Customers include school districts, public transit, law enforcement and military.
