FOR IMMEDIATE RELEASE

Gatekeeper Completes Transit Contract For \$233,300

Abbotsford, BC April 23, 2014 - Gatekeeper Systems Inc. (“Gatekeeper” or the “Company”) (TSX.V: GSI) is pleased to announce that it has completed a contract with Calgary Handi Bus to outfit 108 buses with Gatekeeper’s solid state video safety and security system. The total contract is worth CND \$233,300.

Calgary Handi Bus now has their entire fleet outfitted with Gatekeeper’s 504 solid state video recording systems (“G504”). The G504 video system includes up to four cameras, a driver emergency alarm button, and the G4 Incident Management Software. The G4 Incident Management Software provides managers the ability to find, save, and share incidents quickly and easily across hundreds of desktop computers through a cloud-based system which prevents the need to download software to each computer.

“We are pleased that Calgary Handi Bus has chosen Gatekeeper for their entire fleet. The G504 solid state system is part of Gatekeeper’s scalable product line that provides the highest number of cameras for mobile markets in the industry. Customers can add up to 16 cameras including wireless options such as live streaming video from any vehicle anywhere in the world. This feature allows transportation companies that deliver freight in high risk areas immediate access to live video in case of a hijacking or attack on their fleet”, said Doug Dymont, President and CEO of Gatekeeper. Dymont added, “We continue to receive interest for live streaming in the transit and the school bus market given the growing concern of terrorism and domestic violence.”

About Gatekeeper Systems Inc.

Founded in 1997, Gatekeeper Systems has provided total mobile video security solutions to over 3,500 customers and has installations in every state and province in North America. Customers include school districts, public transit, law enforcement and military.
