Gatekeeper Announces Notices of Award and Commitment from Public Transit Transportation Market

Abbotsford, BC September 16th, 2014 - Gatekeeper Systems Inc. (“Gatekeeper” or the “Company”) (TSX.V: GSI) is pleased to announce that it has received notices of award and commitment from public transit transportation agencies totaling a minimum of USD \$160,000.

A Public Transit Authority from the state of Illinois, Chicago, USA, will have 30 transit buses outfitted with Gatekeeper’s 508 DVR with a 256 solid state drive, equipped with GPS, G4 software, and driver alert buttons. Gatekeeper’s unique wireless download system, trade named AUTOWAKE, may be integrated into a WiFi wireless solution giving users total control of managing and downloading video from remote offices after buses return to depots. The total value of this contract will range from USD \$105,000 to \$115,000, with the high-end dependent on the implementation and installation of wireless infrastructure.

The Illinois-based Public Transit Authority, whose name has not been made public at press time, operates a mass transit system and demand response services that provides scheduled door-to-door pick up and drop-off of seniors, the disabled, and others.

The Company is also pleased to announce it has received a commitment to purchase from a Public Transit Authority from Florida, USA, for their 25 unit paratransit fleet. Gatekeeper will supply a 504 DVR with 4 cameras, equipped with a 500GB drive, GPS, driver alert button and a WiFi Configuration to automatically download the video from the buses to the office. The initial purchase order from our Florida-based customer will start at USD \$56,000. Most recently, Gatekeeper outfitted this customer’s new vehicle purchases from Champion Bus with mobile video security systems in June of this year. An additional 23 systems are targeted to be installed in late September 2014.

About Gatekeeper Systems Inc.

Founded in 1997, Gatekeeper Systems is a leading provider of high-resolution video security and safety systems for mobile applications. Our industry-leading Incident Management

Software synchronizes real-time video, mapping, audio and vehicle sensors to create a total picture of operations. With these technologies, clients can detect, analyze and respond to safety and security threats anytime.

The Company is headquartered in Abbotsford, British Columbia, Canada, and its shares are traded on the TSX Venture Exchange under the symbol "GSI".

The Company is organized into two divisions:

Deep Development Corp. focuses on law enforcement, military and oil and gas markets - from helping to protect overseas troops flying AC130 Gunships and operating Navy or Coast Guard vessels in extreme environments, to securing potential threats in oil and gas environments. Deep Development's post-mission analysis software is used to detect, analyze and respond to security threats.

Gatekeeper® mobile video division gives school bus managers tools to see 360 degrees in and around school buses and ensure the safety of the children they transport. These tools include multiple high-resolution color cameras that enhance safety inside the bus, and the **Student Protector™** infrared license plate reading system. The Student Protector records the license plates of potentially deadly stop arm violators and issues tickets or citations for revenue sharing with the school district, county and Company. Gatekeeper's transit bus surveillance system records up to 16 cameras in high resolution, allowing transit managers to view video live from buses or record evidence from all cameras.
