FOR IMMEDIATE RELEASE

Gatekeeper Announces Notice of Award from Round Rock Independent School District

Abbotsford, BC October 7th, 2014 - Gatekeeper Systems Inc. (“Gatekeeper” or the “Company”) (TSX.V: GSI) is pleased to announce that it has received a notice of award (the “Contract”) from Round Rock Independent School District (“Round Rock ISD”), located in Texas, USA. The total Contract value is starting at a minimum of USD \$194,000, with an option to extend the Contract for two additional one-year periods.

Gatekeeper will initially outfit 100 vehicles of Round Rock ISD’s fleet of 260 with the G304 DVR, equipped with AutoWake and a three-camera set-up. Gatekeeper will also be supplying the infrastructure for wireless capabilities throughout two of their fleet yards located in Round Rock and Austin, Texas. Subsequent to the initial purchase, Round Rock ISD intends to continue outfitting additional vehicles in their fleet, subject to their budgetary constraints, with the intention of outfitting their entire fleet over time.

Doug Dymont, President and CEO of Gatekeeper commented, “We are receiving increased interest for our wireless systems, which provide government agencies with the ability to stream live video or download incidents using our intelligent WiFi system. Many school districts require a proper infrastructure to ensure a problem-free video management program across their wireless network. We are pleased Round Rock ISD had the vision to put a proper infrastructure in place and we look forward to completing the first phase of this project.”

Dymont also added, “I anticipate significant growth in the school bus industry over the next three to five years as the market continues to shift to wireless networks, high-definition cameras, and school bus video enforcement – all important factors in the overall growth in this sector.”

About Gatekeeper Systems Inc.

Founded in 1997, Gatekeeper Systems is a leading provider of high-resolution video security and safety systems for mobile applications. Our industry-leading Incident Management Software synchronizes real-time video, mapping, audio and vehicle sensors to create a total

picture of operations. With these technologies, clients can detect, analyze and respond to safety and security threats anytime.

The Company is headquartered in Abbotsford, British Columbia, Canada, and its shares are traded on the TSX Venture Exchange under the symbol "GSI".

The Company is organized into two divisions:

Deep Development Corp. focuses on law enforcement, military and oil and gas markets - from helping to protect overseas troops flying AC130 Gunships and operating Navy or Coast Guard vessels in extreme environments, to securing potential threats in oil and gas environments. Deep Development's post-mission analysis software is used to detect, analyze and respond to security threats.

Gatekeeper® mobile video division gives school bus managers tools to see 360 degrees in and around school buses and ensure the safety of the children they transport. These tools include multiple high-resolution color cameras that enhance safety inside the bus, and the **Student Protector™** infrared license plate reading system. The Student Protector records the license plates of potentially deadly stop arm violators and issues tickets or citations for revenue sharing with the school district, county and Company. Gatekeeper's transit bus surveillance system records up to 16 cameras in high resolution, allowing transit managers to view video live from buses or record evidence from all cameras.
