FOR IMMEDIATE RELEASE

# Gatekeeper Announces Record-Breaking Backorders of over \$2.7 Million; Receives \$447,000 In New Contracts

Abbotsford, BC February 29<sup>th</sup> 2016 - Gatekeeper Systems Inc. (“Gatekeeper” or the “Company”) (TSX.V: GSI; OTC: GKPRF; FSE: 1GK) is pleased to report that it has received new purchase orders for its next generation high-definition mobile video systems worth approximately \$447,000 CDN (the “New Orders”) for customers located within the United States and Canada. With the New Orders, Gatekeeper has reached over \$2.7 million CDN in backorders as of February 15, 2016, representing the highest sales backorder in the Company’s history to date.

Customers making up the New Orders include Alpine School District Utah, Anchorage School District Alaska, Saskatchewan River School District, and International Corporation Alberta.

Products provided include Gatekeeper high-definition mobile video systems, including one hundred and forty high-definition cameras to record stop-arm violations on Saskatchewan River School Districts buses.

Gatekeeper’s technology has been designed to meet tough military standards for shock, vibration heat and cold. Rough road conditions as well as extreme weather fluctuations found in Alaska, Saskatchewan, Alberta, and Utah are some of the toughest conditions for a school bus video system to operate reliably. Gatekeeper’s next generation high-definition mobile video systems were designed to operate in these extreme environments.

President and CEO Doug Dymont stated, “These new orders were received in the second fiscal quarter 2016 and we intend to ship these orders by the third fiscal quarter of 2016. Our total backorder has hit new highs increasing over \$2.7 million as of the week of February 15, 2016, and we are on track to accomplish our revenue goals for the current fiscal year end.”
