Gatekeeper Wins High Definition Contract Valued at \$620,000 CDN from Leading Transportation Company

Abbotsford, BC February 9th 2016 - Gatekeeper Systems Inc. (“Gatekeeper” or the “Company”) (TSX.V: GSI; OTC: GKPRF; FSE: 1GK) is pleased to report that it has entered into a new contract with a leading transportation services company with operations in over 130 locations within the United States, District of Columbia, Canada, and Saudi Arabia. The total contract is valued at approximately \$620,000 CDN.

Doug Dymont, President and CEO of Gatekeeper stated, “This is a very exciting contract for Gatekeeper. It matches what we believe to be the best high definition mobile video system to one of the leading transportation companies in the United States with global operations. Our video management software will be used on a central server providing remote monitoring capability which is a trend that is increasing in our markets.”

Pursuant to the contract, Gatekeeper will provide its high definition mobile video surveillance system and wireless platform for coach buses. The total number of cameras to be installed on all buses is 765 including 340 high definition cameras and 425 high resolution infrared cameras. Video synchronized with audio, data and time, and vehicle sensors will be recorded to two megabyte hard drives that meet military standards for shock and vibration -- G4 Enterprise software which allows transportation managers to manage incidents quickly and easily.

Gatekeeper’s high definition mobile systems provide transportation managers with an efficient tool that saves time in dealing with false accusations, increases safety, reduces time investigating accidents and monitors driver behavior to ensure their fleet is operating efficiently.
