**Durable.  
Tamper proof.  
Stunning Video Quality.**

## GATEKEEPER

Simple Video Management Solutions

Capture clear,  
high quality  
video and audio  
inside the bus.  
Superior imaging  
when you need it  
the most.

### Superior High Resolution Image Quality

Gatekeeper cameras are specifically designed for mobile environments and provide outstanding video clarity even in the toughest lighting conditions. Built in night vision, wide dynamic range, license plate reading, integrated audio with purpose designed camera housings provide an almost bullet-proof optics package that deliver superior imaging when you need it the most.

#### Integrated Microphone

The Gatekeeper S - Series camera housing includes an integrated microphone allowing high quality audio to be captured at each camera.

#### Integrated IR

The integrated IR utilizes infrared LED's to provide IR illumination at night. A sensor in the camera detects the ambient light and automatically turns on/off the IR LED's as needed.

#### All Metal Housing

An all metal housing creates a vandal proof package that is resistant to physical damage.

#### Wide Dynamic Range

Sony's WDR technology provides class leading imaging performance. The image capture and processing system provides high-quality pictures with enhanced dynamic range that significantly improves image quality in scenes consisting of both bright and dark areas.

#### Five (5) Year Warranty

Included with every HD quality camera.

## 3D Gimbal

The housing inherently implements a 3D gimbal design found in more expensive cameras. This allows the base to be mounted in almost any orientation while allowing the camera to be adjusted so that the image is correctly oriented.

## Tamper Proof Adjustments

Not only is the camera constructed of metal but there are set screws that when tightened, prevents the camera aim from being tampered with. This is important for installation where the camera can be accessed, either due to low ceilings or accessible camera placement.

## 90 Degree Aiming

The housing profile has been carefully designed so that the camera can be aimed 90° laterally and have a clear field of view. This is important for correct aiming when the camera is located at the front of a bus.

## Tolerant to Installation Error

The S - Series housing has been designed so that the camera ball cannot be positioned behind the camera's shroud thus reflecting infrared light back into the lens. This reduces the probability of installation error.

## Sealed Design

The ball that houses the camera electronics has no vents thus making the camera resistant to water spray.

## Vibration Damping

In order to help reduce camera vibration, a rubber mounting ring is supplied. The rubber ring is installed between the camera base and the mounting surface. The rubber ring conforms to the camera base for easy alignment and quick installation.

S370 Day / Night Camera

S355 Wide Dynamic Range Camera

MD170 Day / Night Camera

**Durable.  
Tamper proof.  
Stunning Video Quality.**

- >800 TVL color day/night camera
- Supports the Sony 960H Wide Image Standard
- 24 IR LED's for illumination at night
- Sony Super HAD CCD Image Sensor
- Integrated microphone to capture audio
- Vandal resistant metal housing
- Cabling and connectors allow for easy installation and integration with Gatekeeper mobile G-series DVRs
- 3D gimbal functionality allows image to be "Squared Up" when camera is mounted at an angle

**Highest Resolution -  
Exceptional Picture Quality In  
Any Light.**

- >650 TVL color wide dynamic range camera
- Supports the Sony 960H Wide Image Standard
- 24 IR LED's for illumination at night
- Sony Effio WDR Imaging Technology
- Integrated microphone to capture audio
- Vandal resistant metal housing
- Cabling and connectors allow for easy installation and integration with Gatekeeper mobile DVR's
- 3D gimbal functionality allows image to be "Squared Up" when camera is mounted at an angle

**Powerful.  
Super Compact.  
Outstanding Video Quality.**

- 700 TVL color day/night camera
- Supports the Sony 960H Wide Image Standard
- 6 IR LED's for illumination at night
- Sony Super HAD CCD Image Sensor
- Integrated microphone to capture audio
- Vandal resistant metal housing
- Cabling and connectors allow for easy installation and integration with Gatekeeper mobile DVR's
- 3D gimbal functionality allows image to be "Squared Up" when camera is mounted at an angle
